At the joint Montana Water Resources Association and Upper Missouri Water Association (UMWA) conference on Oct. 16, James Odermann of Billings County was honored with the UMWA's Distinguished Service Award.

In more than 25 years of service on the Southwest Water Authority (SWA) board of directors, Odermann has been instrumental in defining and refining the very mission of the Southwest Pipeline Project (SWPP) and SWA. He served as vice chairperson of SWA from 2010 to 2020 and has served as chairperson since 2020. He has been a vocal advocate of SWA's involvement with other rural entities and working for consensus to develop sensible, sustainable water policy for the state.

As a result of his dedication, he was appointed to the North Dakota State Water Commission by Governor Doug Burgum in 2021 to represent the Little Missouri, Upper Heart, and Upper Cannonball River Basins.

Odermann is a dedicated champion for rural water. He understands the importance quality water has on the economy, agriculture, and tourism in southwest North Dakota. Odermann has remained steadfast in communicating the importance of quality water for the livelihood and enjoyment of the state of North Dakota.

A variety of regional and state community service businesses, organizations, and projects, including North Dakota State University's Dickinson Research Extension Center, Assumption Abbey in Richardton, Billings County Historical Society, North Dakota Nature and Rural Tourism, Dakota West RC&D, and Medora Area Convention and Visitors Bureau, have benefited from Odermann's leadership and guidance.

Odermann and his wife, Leona, live on their ranch north of Belfield.

This initiated measure would amend sections 1, 14, 15, and 16 and repeal sections 4, 5, 7, 9 and 10 of article X of the North Dakota Constitution. It would prohibit political subdivisions from levying any tax on the assessed value of real or personal property, except for the payment of bonded indebtedness incurred through a certain date, and would require the state to provide replacement payments to political subdivisions of no less than the current real property tax levies. It would limit the debt of a political subdivision to an amount not to exceed two and one-half percent of the full and true value of the real property in the political subdivision; however, by a vote, an incorporated city could increase its indebtedness to four percent and a school district could increase its indebtedness to five percent. It would allow an incorporated city to become indebted in an amount not exceeding two percent of its full and true value for water and sewer projects. It would require a political subdivision incurring indebtedness to provide for annual revenues to pay the debt payments when due and would prohibit a political subdivision from issuing general obligation bonds secured with tax levied on the assessed value of property.
