## North Dakotans reminded to call before they dig

Governor Kelly Armstrong has proclaimed April as Safe Digging Month in North Dakota. In recognition, the ND Public Service Commission (PSC) is reminding everyone of the potential dangers and consequences of digging without first clicking or calling 811, North Dakota's Call-Before-You-Dig number. "Spring is here, and that means outdoor projects are on the rise! Before you pick up that shovel or start digging, the North Dakota Public Service Commission has a crucial reminder: call 811 first," said Commissioner Sheri Haugen-Hoffart, who holds the damage prevention portfolio. "It's not just a good idea -- it's a safeguard against striking underground utility lines like gas, power, communications, water and sewer systems. Hitting one of these can lead to serious hazards and racks up billions in damages every year. With one quick call to 811, you can ensure a safe, hassle-free project and protect your community from avoidable risks. Don't dig into danger -- make the call!" North Dakota law requires anyone conducting an excavation to notify 811 at least two business days in advance of digging. This is a free service to homeowners and farmers working on their own property/land. Personnel will be sent to mark the locations of the underground facilities, typically within a couple of days. The markings are valid for 21 days after they are placed as identified on your excavation notice ticket. This process is coordinated through ND One Call. The Public Service Commission's role is to enforce the requirements of the state's damage prevention laws and take action when violations are reported to the commission. The PSC can levy a fine up to \$25,000 per violation depending on severity. Each year, North Dakota's underground utility infrastructure is jeopardized by unintentional damage from those who fail to call 811 to have underground facilities located prior to digging. Since 2009, the PSC has received and processed 364 complaints related to violations of the Call-Before-You-Dig law. In total, approximately \$466,150 in fines have been assessed against companies or individuals who have violated the law. The consequences of striking an underground utility can be severe, including explosions resulting in injury or death, service interruptions or damage to the environment. The significant residential and business growth occurring throughout North Dakota and the increased demand for pipeline infrastructure to support the energy industry have dramatically increased demand for the One Call Program. Safe Digging Month is endorsed each April by the ND Public Service Commission, the Common Ground Alliance and the ND One Call Board. For more information about 811 and begin your excavation notice, visit the ND One Call Board's website at [www.ndonecall.com](http://www.ndonecall.com). For safety tips, best practices and other information, visit the Common Ground Alliance website at [www.commongroundalliance.com](http://www.commongroundalliance.com).
