New Permit Public Notice

For Rainbow Energy Center, LLC - Coal Creek Station

An application for a new solid waste unit has been submitted to the North Dakota Department of Environmental Quality by Rainbow Energy Center, LLC. The reason for this application is to construct a new solid waste unit, which will have a new permit number. This new solid waste unit was formerly part of existing Solid Waste Permit 0399 and is being split out of that permit. This solid waste unit will be regulated by North Dakota Administrative Code Chapter 33.1-20-08 which covers the Disposal of Coal Combustion Residuals in Landfills and Surface Impoundments. This permit application is for a new coal combustion residual surface impoundment at Coal Creek Station located in Section 9 in T145N and 82W approximately five miles south-southwest of Underwood in McLean County, North Dakota.
