

Northland Health Center recieves grant

Northland Health Centers, in Turtle Lake, has received a grant from the Blue Cross Blue Shield of North Dakota (BCBSND) Caring Foundation Building Healthier Rural Community (BUILD) Grants Program. This BUILD Program aims to transform the health and well-being of rural North Dakotans and address the social determinants of health affecting its communities.

Northland Health Centers was awarded \$4,000 to provide essential resources—such as food, clothing, hygiene supplies, and school supplies—to students and their families facing hardships.

The goal is to help alleviate barriers to learning and promote students' ability to focus, participate fully in school, and enhance their long-term well-being by fostering stronger school-community partnerships.

Service animals are coming under more scrutiny by landlords

Landlords say some tenants try to keep pets in pet-free buildings or avoid pet fees by claiming their pet is an assistance animal or service animal. SB 2193, which is sponsored by Sen. Judy Lee, R-West Fargo, is intended to draw a sharper distinction between assistance and service animals.

Under the bill, a health care provider would need to be licensed in the state to be eligible to provide documentation that an individual needs an assistance animal.

The provision is aimed at individuals who get "documentation" from Internet providers that do little verification of a person's need for an assistance animal.

Opponents of the bill say it could make it more difficult for people who legitimately need an assistance animal to obtain housing, and could put North Dakota at odds with federal housing laws and regulations. They argued that the bill would affect out-of-state students and workers who obtained their documentation from a health care provider outside North Dakota. SB 2193 passed the Senate 44-2 in January.

The House Agriculture Committee has yet to make a decision on the

"This funding from the BCBSND Caring Foundation allows us to provide essential resources that can make a real difference for students and their families."

Nadine Boe, CEO of Northland Health Centers

"At Northland Health Centers, we see firsthand how social and economic challenges impact the health and well-being of our communities," said Nadine Boe, CEO of Northland Health Centers. "This funding from the BCBSND Caring Foundation allows us to provide essential resources that can make a real difference for students and their families. By addressing basic needs, we can help remove barriers to education and support the overall health of our communities."

The BCBSND Caring Foundation BUILD grants are housed within the

Center for Rural Health (CRH), at the University of North Dakota School of Medicine & Health Sciences. This is the 20th year these grants have been given to rural communities through CRH. For 2024-2025, eight grants were awarded throughout North Dakota, totaling over \$37,000.

"We are honored to be able to award these organizations with BUILD grants," said Holly Long, project coordinator at CRH. "These awards will help provide resources for patients, education and screenings, behavioral health assistance,

along with other needed areas, that can support healthcare in rural communities across the state. These or-

ganizations are on the front lines of providing care in rural North Dakota, and we are proud to partner with them to make a tangible difference in the lives of individuals and families."

About the BCBSND Caring Foundation

The BCBSND Caring Foundation aims to support projects that reflect the foundation's mission by identifying statewide needs and providing

funding through grants and initiatives that promote healthy lifestyles for North Dakota residents. The BUILD grant targets the following primary focus areas:

- Economic stability
- Education access and quality
- Healthcare access and quality
- Neighborhood and built environment
- Social and community context
